Split string by space into words

🔒 locked

Problem	Submissions	Leaderboard	Discussions

Given a string in input. Split the string by space int the words.

Input Format

Input would be in a single line, containing string of characters making a sentence.

Constraints

String would not be more than 100 characters.

Output Format

Output should be in multiple lines, each line containing the different words in a string.

Sample Input 0

```
This is a sample test case
```

Sample Output 0

```
This
is
a
sample
test
case
```

Sample Input 1

```
Were you able to solve the question
```

Sample Output 1

```
Were
you
able
to
solve
the
question
```
